1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/11/11 has been entered.
2. The indicated allowability of claim 38 is withdrawn in view of the new rejection below.
3. Claims 38 and 47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not provide support for the combinations of polymers and the ranges claimed. Specifically, table 3 provides 5 examples. Example 1 comprises 100 parts polyamideimide. Example 2 comprises 100 polybutylacrylate. Example 3 comprises 40 parts polyvinyl chloride and 60 parts polymethacrylate. Example 4 comprises 70 parts polyamideimide and 30 parts polystyrene. Example 5 provides 20 parts polyacrylonitrile, 40 parts polystyrene and 40 parts polybutadiene. No other values for particular polymers are provided. Therefore, there is no support for the invention as claimed in claims 38 and 47.
